## ABOUT

---

Strategy and operations professional with two years at Deloitte Consulting and a Master of Engineering Management underway at Cornell. I am at my best turning ambiguous, high-visibility business problems into structured plans backed by market research and clear analysis, and I like working across teams to actually get them shipped. My background blends business strategy, competitive analysis, and building AI-enabled products that move real metrics.

## EXPERIENCE

---

### VenueHorn

Jun 2026 – Present

*Strategy & Operations Intern*

*New York, NY*

- Authored a product requirements document (PRD) from scratch defining the company's core offerings, translating ambiguous business needs into a structured product scope aligned across product, data, and leadership stakeholders.
- Conducted market research and competitive positioning analysis across the venue rental industry, identifying whitespace gaps in incumbent offerings and recommending differentiated product directions grounded in fact-based analysis.
- Diagnosed gaps in the revenue model and designed a premium monetization feature leveraging AI to generate curated venue listings from natural-language descriptions, addressing a prioritized business problem.

### Deloitte Consulting

Aug 2023 – Mar 2025

*Analyst, Customer Strategy and Design*

*Gurgaon, India*

- Led structured benchmarking and market research evaluating 25 competitor product features to define performance metrics, prioritize improvements, and increase customer engagement by 10%.
- Drove three competitive RFPs by applying business strategy and coordinating delivery, pricing, and roadmaps across cross-functional finance, product, and engineering teams to secure multi-vertical client wins.
- Built a GenAI analytics microservice (Vertex AI, Qdrant vector DB, Cloud SQL) that automated 35% of manual analyst workflows, applying predictive modeling to surface faster, data-driven insights for banking clients.
- Engineered a generalized Retrieval-Augmented Generation (RAG) platform with multi-format ingestion pipelines and API-driven chatbot integration, standardizing automated question answering and SDK consumption across teams.
- Partnered with product, design, and engineering to launch a chatbot feature automating supplementary card requests, streamlining onboarding and increasing acquisitions by 15%.

## LEADERSHIP

---

- **VenueHorn:** Led the data intern team, setting objectives and coordinating deliverables in Jira so their analysis stayed aligned with product and revenue priorities.
- **Deloitte Consulting:** Mentored junior analysts in management consulting methodologies and led internal training on generative AI use cases, workflow automation, and model governance best practices.

## EDUCATION

---

### Cornell University

Aug 2025 – Dec 2026

*Master, Engineering Management*

*Ithaca, NY*

- Cumulative GPA: 4.02/4.00
- Coursework: Strategic Management of Technology & Innovation, Data Analytics, Decision Framing and Analytics, Economics & Finance for Engineering Management, Project Management

### Delhi Technological University

Jul 2019 – May 2023

*Bachelor of Technology, Computer Science*

*New Delhi, India*

- Cumulative GPA: 3.65/4.00, Major GPA: 3.88/4.00

## SKILLS

---

**Strategic & Consulting:** Management Consulting, Business Strategy, Business Planning, Market Research

**Data & Analytics:** Excel (PivotTables, Dashboards), PowerPoint (Executive Presentations), R, Predictive Modeling, Spreadsheet Software

**Programming:** Python (Pandas, NumPy), SQL, C, C++

**Cloud Platforms:** Google Cloud Platform (BigQuery, Cloud SQL, Vertex AI)

**AI & GenAI:** OpenAI API, Vertex AI, Retrieval-Augmented Generation (RAG), Qdrant Vector Database
